## Cheetah is a Feisty, Kool Kat...

*Charlotte 'Cheetah Black' Boyd leaps back in time taking you with her on an exciting journey of entertaining audiences world-wide.*

[Palmdale, California, September 5<sup>th</sup>, 2019] Available now, *The Travels of a Cheetah - The Dancing Feline* shares the adventures of Charlotte 'Cheetah Black' Boyd, an American woman, while she performs as a dancer throughout the United States and abroad. At a time when most women in her country were seemingly settling into secure lifestyles, personally and professionally, Cheetah accepted work opportunities in far off places where citizens lived differently.

At an early age, growing up in Louisville, Kentucky, Charlotte was destined to blossom into "Cheetah Black" with her lively talents singing, dancing and modelling. Her professional career began at age 21, as a dancer, when she was selected for a US tour with The Ray Charles Show. This high-profile gig offered her bookings throughout South East Asia, Malaysia and Japan, just a few of the countries where she would also reside for a number of years.

As a foreigner, Cheetah enjoyed her new experiences, learning about various cultures and meeting women immersed in their traditional environments. Witnessing the every-day challenges these women faced because of their gender, Cheetah would help them see their own value and contributions to their society.

### ***Excerpt.***

*"Michael stated that our threesome had become two and there was no communication from him when we arrived at the airport, or even when we were training. I was rude and livid. A year of preparation – training in singing and dancing with arranged music, costing thousands of dollars, and practice, practice, practice, may all have come to naught. Well, I wasn't about to let him ruin our dream."*

Any trials Cheetah and her partner Ben encountered, due to logistics or their non-residency status in the countries they were working, gave her a fresh perspective about being an American woman and the freedoms she'd grown accustomed to having. Cheetah would eventually come to appreciate these insights and be grateful for her good fortune and special gifts; being able to recognize and relate to other peoples' unique humanity.

Charlotte 'Cheetah Black' Boyd is a dynamic individual who can now include author to her artistic repertoire.
